**Marathon TS Names Ted Marshall
New Vice President of Business Development**

STERLING, VA (January 28, 2021)—Marathon TS CEO Pam Siek has announced the appointment of Ted Marshall as the company’s new Vice President of Business Development. As a key member of Marathon’s leadership team, Marshall will build a team that will grow the company’s footprint on the federal marketplace. “When I joined Marathon, the company had aspirations to go beyond just staffing contracts and leverage our expertise in agile software development, but they needed someone to lead the charge, and I took on that mission.”

“Quite simply” he added, “my goal is to win more prime contracts for Marathon TS in 2021.”

The IT contractor, headquartered in Sterling, VA, has established an impressive track record of unprecedented growth. With an average growth rate of more than 99% over the past three years, Marathon TS has made the Inc. 5000 list of fastest growing companies for the 7th year in a row.

“I am delighted to recognize Ted’s accomplishments and contributions since he joined Marathon TS in February of 2019,” Siek said. “His deep understanding of the federal market along with his leadership and drive are invaluable assets for this company. He has already created opportunities for our IT Solutions team that will have tremendous impact on our revenue and positioning in the future.”

“While recognition is always nice,” Marshall said of his promotion, “I can’t emphasize enough the amount of team collaboration that goes into winning new work and expanding our role on existing contracts. I am thankful for everyone that has helped me along the way.”

Marathon TS is a woman-owned small business headquartered in Sterling, VA, with offices in St. Louis and San Diego. The IT professional services firm builds IT solutions for government agencies and staffs government contracts with highly qualified and cleared IT personnel. Averaging a growth rate over the past three years of more than 99%, Marathon TS has been named to the Inc. 5000 list of fastest growing companies in the US 7 years in a row.
